

### DIRECTIONS FOR LISE

Add a small quantity of water to a suitable compression sprayer and then add product according to the table below. Add the remainder of the water, close the sprayer securely, shake to mix contents. Pressurise according to the sprayer manufacturer's instructions. One litre of ready-for-use spray treats 20 square metres of surface. Make up spray as required. Do not store spray overnight.

TARGET PEST	PRODUCT	WATER	COMMENTS
CRAWLING INSECTS Routine treatment: Heavy infestation:	25ml 50ml	5 litres 5 litres	Maintenance or "spot" treatment Attack or "clean-out" treatment
FLYING INSECTS Routine treatment:	25ml	5 litres	For the control of "resting insects"

Apply as a coarse low pressure spray. Some surfaces will absorb more spray, e.g. brickwork or concrete, whereas surfaces such as metal or plastic will allow spray to easily 'run off' significantly reducing the deposit rate of the active material on the surface. Several passes of a light spray each allowed to dry is more effective when treating non-porous surfaces.

Bedbugs: Apply spray to harbourages and resting places on bedframes, headboards and to cracks and crevices around or near the sleeping area. Pay special attention to any loose wall coverings near the sleeping area and to cracks and crevices in bedroom fittings and furniture. Treat under loose floor coverings and around door frames, picture frames and wall cupboards etc.

Fleas: Prior to treatment, thoroughly vacuum the area and seal the contents of the vacuum bag before disposal in the refuse. Apply spray to carpets and soft furnishings, including the underside of cushions and to areas regularly occupied by domestic animals.

Cockroaches and other crawling insects: Apply to areas where insects are found, e.g. skirting boards, storage areas, around water piges, door frames, window frames, around and behind refrigerators, cabinets, sinks, stoyes and the underside of drawers and shelves and to cracks and crevices behind wall-mounted units or fixtures.

FOR INDOOR USE ONLY. This material and its container must be disposed of in a safe way. To avoid risks to human health and the environment, comply with the instructions for use. Avoid excessive contamination of coveralls. Contaminated clothing should not be removed from the workplace and should be washed before re-use. WASH HANDS AND EXPOSED SKIN before meals and after use. FACIAL SKIN CONTACT MAY CAUSE TEMPORARY NUMBNESS. DO NOT SPRAY DIRECTLY ONTO HUMANS, PETS, FOOD, FOOD PREPARATION SURFACES OR FOOD UTENSILS. ADDITIONALLY, ANY FOOD UTENSILS OR FOOD PREPARATION SURFACES SHOULD BE THOROUGHLY CLEANED BEFORE REUSE. UNPROTECTED PERSONS AND ANIMALS SHOULD BE KEPT AWAY FROM TREATED AREAS UNTIL SURFACES ARE DRY. EXCLUDE ANIMALS DURING APPLICATION. DO NOT APPLY TO CLOTHING OR HUMAN BEDDING. DO NOT TOUCH TREATED SURFACES UNTIL DRY, HAZARDOUS TO BEES KEEP IN A SAFE PLACE. COVER ALL WATER STORAGE TANKS before application. REMOVE OR COVER FISH TANKS AND BOWLS before application, SPRAY ONLY ONTO SURFACES.
